THE voting on the erection of the proposed school district of South Edmonton on Tues- day resulted in a vote of 13 for and 16 against the district. A full vote was polled and a good deal of interest was manifested on both sides.

REPORTED that the police commissioner has chosen the small plain on the west side of Black Mud creek at the bridge is the site for the new barracks. An excellent location for a bull-dog ranche. It is also said that the build- ings are to be erected this summer.

THE items in the estimates allowing \$15,- 000 to the improvement of the North Saskat- chewan river and \$2,000 to the Elbow bridge at Calgary have been passed. Also salaries for immigration agents at Qu'Appelle, \$1,400, Medicine Hat \$1,200 and Calgary \$1,200.

THE police require about 7,000 bushels of oats at this post during the coming year. It is a pity the notice was not given a month ago, in which case a much greater acreage would have been sown. As it is it is doubtful if there will be sufficient surplus grain to sup- ply this demand.

A POLICE detachment left for Calgary this week to bring in a band of 20 fresh horses. The detachment numbered ten men and were accompanied by corporal Shaw and constables Estwick and Gordon, on the way to Regina to be invalided. Also by the non-coms trans- ferred to the southern divisions.

EDMONTON BULLETIN, JUNE 5, 1886.

For parties who put up to be sharp business men the members of the board of trade of the good city of Winnipeg seem to have very great difficulty in seeing through a ladder. The city is agitated about discriminating freight rates over the C. P. R. The board of trade and the city council have had delegations make pilgrimages to the feet of the great Van Horne respectfully praying him to deign to consider their pitiful case and out of his great and merciful heart grant them relief by giving lower proportionate rates to Winnipeg than to points further west. The mighty Van Horne speaks them fair, because it is his interest to do so. He also holds up the rates, because it is his interest to do so. And he will continue to do likewise as his interest requires. Which will be until Winnipeg becomes a competing point of rival railway systems. Which will never be as long as Winnipeg men sit down and snivel and beg and pray and submit to political exigency instead of taking active measures to secure connection with competing lines in the states. Which will never be as long as they allow their allegiance to a political party to dominate their common sense. But disallowance stands in the way. So it will until the Winnipeg people either sweep it out of the way or get around it. There was a time not many years ago when Winnipeg was offered the advantage of being made a competing point by the Northern Pacific. The sharp Winnipeg men saw that their interest lay in debasing themselves under the feet of the C.P.R. instead. They did it. And now they are paying for it. And paying for it alone. These discriminating rates are the funeral of Winnipeg. They are the life of wholesale trade in towns west. The next time Winnipeg men get the chance of a competing line they will probably take it. But they have taken several years to learn this much. Which a basswood man should have known without being told.

From the statements made by the minister of the interior while in the North-West last fall it was fully expected that in the first amendments made to the North-West act regard would be had to the universal desire for an entirely elective North-West Council—freed from the obnoxious votes and interference of the creatures of the Ottawa government, which hitherto has been a dead weight on that not too energetic or progressive body. Instead of the non-elective portion of the council being wiped out by the late bill dealing with the subject, its numbers have been increased from six to eight, no doubt to counterbalance to some extent the increased elective membership of last year. Not only so, but means are taken to have those eight more pliable than the former six, for whereas before the stipendiary magistrates were ex-officio members of the council and might or might not be independent, now the judges will only be members if appointed, and it may be depended upon that only those who are thoroughly subservient will be allowed to sit. Against the principle of allowing nominees of the Ottawa government equal power with popular representatives in territorial legislation it is useless in this age and country to argue. No just reason can be advanced in its support. The appointments are made simply to trammel the free expression of public opinion through the council and to block necessary legislation whenever that opinion or legislation conflicts with the ideas or whims of the authority making them. Indeed past experience shows that the appointees are so very desirous of serving their masters, and keep such a close watch for anything that might adversely affect their interests that that they find causes of offence where the said masters have on careful examination failed to find that any existed. The intention of a local legislature or council is that it shall give expression to local views and feelings. If it is not for that purpose it

has no purpose, and that the North-West Council shall continue to have no purpose is the evident intention of the Ottawa authorities. The appointment of judges to the council is the worst feature of the case. That a judge who is supposed to be and should be above all considerations but those of justice should be placed in a position where he must upon occasion either subserve justice to politics or endanger his material interests is an outrage. It is degrading to the dignity of the judicial office and unfits the judge for the impartial discharge of their judicial duties. In all the provinces of Canada judges are specially and wisely guarded against political influences, while here they have been and unfortunately are still to be not only subjected to political influences but put in the fore-front of the battle, using the dignity of their judicial office against ordinary methods of political attack. It is an accepted principle that the judicial should be kept separate from the legislative and executive functions of government, and in wilfully violating this principle our rulers show what little regard they have for either our rights or liberties, and how little they desire the territories to enjoy local self-government, except in name.

ADVERTISEMENTS appear in the Calgary papers asking for tenders for the privilege of cutting hay on the C. P. R. sections in that region, and warning all parties cutting hay without leave that they will be prosecuted. Considering that the C.P.R. company is exempted from all taxation on this land they could have afforded to be generous in the matter of hay required by settlers whose presence and labor is making valuable year by year the land upon which this hay grows and annually goes to waste. Had it not been for the McLean case here last summer we might have had similar notices issued by the colonization company instead of cutting all the hay each settler requires at 10c a ton, or if they can agree among themselves at nothing at all. The government's rule regarding unimproved lands may not be altogether benign but it is vastly better than that of any speculative company of which the North-West has had experience.

SCRIP.

The minister of the interior introduced on May 20th in the house of commons a series of resolutions declaring 1. That it is expedient to extend the provisions of the act respecting grants of land to members of the militia force on active service in the North-West: (a) To the officers, non-commissioned officers and men of any irregular force raised by authority, and actively engaged, and bearing arms in the suppression of the Indian and half-breed outbreak, other than as a home guard at or near their place of residence: (b) Every scout actively engaged therein whose services have been certified to by competent authority: (c) The master, pilot and crew of the steamer Northcote, and the crew of every other boat engaged in action during the outbreak: (d) Every person regularly appointed to the medical staff and actively engaged during the outbreak: (e) Nurses and hospital dressers actively engaged during the outbreak, and reported for special meritorious service by the Major-General commanding: (f) Members of the enrolled militia force who having started with their corps for active service west of Port Arthur were incapacitated by accident or disease from accompanying such corps on service beyond that point, and were ordered to return home, or were invalided, and if they have since died, their legal representatives. 2. That holders of certificates of pre-emption entry at the time when they were called out for active service, to whom the said act and the foregoing resolutions apply, may tender the warrant mentioned in section 3 of the said act, in payment of moneys due in respect of such entry, but that such warrants shall not be so receivable from substitutes of holders of certificates in this resolution before mentioned. 3. That members of the several corps enlisted and serving under the provisions of section 21 of The Consolidated Militia Act of 1883, entitled to participate in the advantages conferred by the said act, may tender such warrants in payment "pro tanto" for any lands they select for settlement within six months after the expiry of their term of service, provided that each such member shall notify the minister of the interior before the 1st day of August, 1886, whether he will accept a warrant to be applied, as in this resolution mentioned, or scrip for eighty dollars, as by the said act provided.

A copy of the bill to provide a supreme court for the North-West has arrived. The court will consist of five puisne judges. Judges of superior courts of the provinces, stipendiary magistrates of the Territories, and barristers of ten years standing are eligible. The court will sit in Regina; three judges will form a quorum; and the senior judge present will preside. Judges may hold seats in the North-West Council without emolument, but no other office. The judges will reside where ordered by the governor in council in the judicial districts set apart by the same authority and may be dismissed on joint address of parliament. Salaries, \$4,000, and travelling allowances fixed by the governor in council, with retiring allowance after fifteen years as judge or stipendiary magistrate of two thirds the salary at the time of resignation. The powers of the court are similar to those of the supreme courts of the provinces and of the judges separately to those of the stipendiary magistrates. The lieutenant-governor will define the time and place of the judges' sittings. A sheriff and clerk of the court will be appointed for each judicial district by the governor in council, who will also appoint their place of residence. Security must be given to the lieutenant-governor. The sheriff will receive \$500 a year salary and such fees as the lieutenant-governor in council may prescribe. The sheriff and clerk may with the approval of the lieutenant-governor appoint deputies. The lieutenant-governor in council has the same powers as the legislatures of the provinces to pass ordinances in relation to the administration of justice in the territories. The procedure in civil and criminal cases will be governed by the law of England as it stood on July 15th, 1870, except that no grand jury shall sit in the territories. The lieutenant-governor in council may pass ordinances respecting civil and criminal juries. Eight persons may be appointed by the governor in council to sit in the North-West Council.

EMMANUEL College, Prince Albert, is extending its operations to the teaching of agricultural chemistry, as well as literature and theology, to its Indian students by lectures, chemical experiments and actual farming. Lord Lansdowne will give prizes to the most deserving of the Indian pupils. Hon. L. Clarke has forwarded a cheque for \$700 as a contribution by officers of the H. B. Co. and two sons of the late Factor William McKay of Fort Pitt, to form a McKay scholarship. Thos. Swanston has given a large tract of land adjoining the college, and Thos. McKay, mayor of Prince Albert, has signified his intention of rendering substantial assistance.

AN appropriation of \$20,000 for North-West rebellion pensions has been passed in the estimates.

CANADA.

By the Right Honorable Sir JOHN ALEXANDER MACDONALD, G. C. B., Superintendent General of Indian Affairs.

To all to whom these presents may come, or whom the same may in anywise concern,—GREETING.

WHEREAS it is in and by the act of the Parliament of Canada, passed in the forty-seventh year of Her Majesty's Reign, chaptered twenty-seven and intitled "An Act further to amend the Indian Act, 1880," amongst other things in effect enacted, that the Superintendent-General of Indian Affairs may, when he considers it in the public interest to do so, prohibit by public notice to that effect, the sale, gift or disposal, to any Indian in the Province of Manitoba or in any part thereof, or in the North-West Territories or in any part thereof, of any fixed ammunition or ball cartridge; and every person who after such notice, without the permission in writing of the Superintendent General, sells or gives, or, in any other manner conveys to any Indian in the section of country thus prohibited any fixed ammunition or ball cartridge, shall incur a penalty of not more than two hundred dollars, or shall be liable to imprisonment for a term of not more than six months, or to both fine and imprisonment, within the limits aforesaid, at the discretion of the Court before which the conviction is had:

Now Know YE that I, the said Right Honorable Sir John Alexander Macdonald, Superintendent General of Indian Affairs, considering it to be in the public interest so to do, do hereby give public notice that the sale, gift or other disposal to any Indian in the North-West Territories of Canada or in any part thereof of any fixed ammunition or ball cartridge is hereby prohibited, and that every person who, after this notice, without the permission in writing of the Superintendent-General of Indian Affairs for the time being, sells or gives away, or in any other manner conveys to any Indian in the North-West territories of Canada, or in any part thereof, any fixed ammunition or ball cartridge, will incur the penalties provided by the said act.

IN WITNESS whereof, I have hereunto subscribed these presents at my office, in the city of OTTAWA, this NINE TEENTH day of August, A. D. 1885.

JOHN A. MACDONALD, Superintendent-General, Indian Affairs.

NOTICE.

Claims of Half-Breeds and Original White Settlers, Province of Manitoba.

WHEREAS, since the completion of the allotment of the 1,400,000 acres of land set apart under the Manitoba Act to extinguish the Indian title of the Children of the Half-Breed heads of families resident in the Province of Manitoba, on the 15th July 1870, a large number of additional claimants have come and some are still coming forward with the evidence necessary to prove that they are children of Half-Breed heads of families and were residents in the province of Manitoba at the date mentioned.

And Whereas, the 1,400,000 acres set apart under the Manitoba Act as aforesaid have been exhausted by such allotment, and by Order in Council, dated the 20th of April, 1885 it has been decided to extinguish such additional claims known as "Supplementary Claims," by an issue of \$240.00 in scrip to each Half-Breed child entitled.

And Whereas, by the Act 37 Vic., Cap. 20, the Half-Breed heads of families resident in the said Province on the date mentioned, and the "Original White Settlers," and the children of such settlers, as defined in the said Act, are each entitled to receive scrip to the extent of \$160.00.

And Whereas, His Excellency the Governor General in Council has deemed it expedient to limit the time within which all claims of the nature above specified may be presented; therefore

PUBLIC NOTICE is hereby given that under the authority contained in the Order in Council above mentioned, bearing date the 20th April, 1885, all claims under and by virtue of the provisions of the said order in Council, and the Act 37 Vic., Cap. 20, to "Half-Breed" and "Original White settlers" scrip that are not filed on or before the 1st day of May, 1886, with the Commissioner of Dominion Lands, together with the necessary proof thereof, shall cease and determine.

By Order, **A. M. BURGESS**, Deputy Minister of the Interior. Department of the Interior, Ottawa, May 22nd, 1885.

LOCAL.

AGRICULTURAL Society directors' meeting adjourned until June 19th.

As the telegraph line was down during the two days of the police commissioner's stay here no decision as to the location of the barracks was arrived at, which was unfortunate. But not so very unfortunate, in that it made the commissioner a strong advocate of an alternative line to Calgary.

HANEY & HENDERSON'S blast furnace was started up on Saturday last. The heat raised was sufficient to soften the rock in the cupola but not to make it run, except some small pieces. A larger fan was made to give a stronger blast and the furnace started again on Thursday, when the new fan broke. It is repaired again and smelting will be resumed next week.

THE North-West Territories Gazette of April 30th contains the appointment of A. E. Forget, clerk of the North-West Council, as printer to the government of the North-West Territories. Also the erection of Protestant public school district No. 62. Also the appointment of L. J. Munro, M.D., as coroner. This copy of the Gazette is better printed than usual.

For some time past an advertisement has appeared in the BULLETIN describing two horses found last summer on the plains near Nose Hill. This advertisement has led to the recovery of the horses by their owner who lives near Qu'Appelle. They were attached to the military expedition of last spring and were lost from the neighborhood of Fort Pitt. Moral—Advertise in the BULLETIN.

THE proposed buildings for the Peace Hills Indian agency are to be of the following dimensions and material: Agent's house, story and a half high, balloon frame, 20x30, with projecting wing 4x13x6; kitchen 11x11 by 10 ft high; to be finished with lath and plaster. Office, logs, 16x24. Combined blacksmith and carpenter shop, logs, 14x32. Store house and granary, logs, 24x50. Stable, logs, 16x20. Root house, logs, 16x20.

SOTS. GELDERT and Gordon and corporal Patterson who have been transferred to C. MacLeod, H. Lettbridge, and A. Maple Creek, divisions respectively, left on Thursday for the south. The former has been hospital sergeant at Fort Saskatchewan and Edmonton since the fall of 1881. During the troubles of last summer he discharged the duties of quarter-master-sergeant and during part of the time of sergeant-major as well in addition to his duties as hospital-sergeant. In these duties he was efficient and well liked, and has the best wishes of all who knew him in his new field. Sgt. Gordon arrived rather less than a year ago and has been an active duty man, and at the same time personally popular with both police and people, ever since. Although under a slight cloud at present on account of the escape of Johnson and Gallagher, the universal verdict is that his leniency towards them when prisoners, which was taken advantage of by them in making their escape, was in every way creditable to him as a man, although perhaps indiscreet as a policeman, and there is no doubt that had he been properly seconded by the constable accompanying him the escape would not have been made.

THE report of the H. B. explorations of the steamer Alert in the season of 1885 is to hand, with reports from the observation stations along both sides of the straits from August 1884 to August 1885. From these reports it appears that the western end of the straits is much the worst in the matter of ice. In the eastern part the ice never remained solid for any length of time, but at the western end between Nottingham island cape Digges it was solid during December and January. During February, March, April and May it opened and drifted more or less, but a vessel would have had little chance of forcing a passage. In November, June and July the drift was greater and a passage might have been forced with difficulty. Navigation was practicable without serious difficulty during all but the first days of August the whole of September and all but the last days of October, the safest time being the latter part of September and early part of October when the navigation is good for a vessel of any class. The season of 1885 was more backward than that of 1884. The ice seemed to be worse along the south than the north shore and it is possible that north of Nottingham and Salisbury islands a clearer although longer passage could be found. The position and condition of the ice varies greatly in different seasons.
